DR. W. W. CASE'S Liver Remedy BLOOD PURIFIER Tonic and Cordial.

This is not a patent medicine, but is prepared ider the direction of Dr. M. W. Case, from his varite prescription, which in an extensive ractice of over twenty-seven years he has found out effective in all cases of disordered liver or pure blood. It is ANTI-BILIOUS.

It sets directly upon the liver, restoring it when diseased to its normal condition; and in regulating the activity of this great gland every other organ of the system is benefited. In Blood Diseases it has no equal as a purifier. It improves directly, and assists nature to eliminate all impraties from the system; and while it is the cheapest medicine in the market, it is also apprior to all known remedies. Thousands suffer without knowing the nature of this almost universal complaint. It is an ulceration of the head. Its indications are, hawking, spitting, weak inflamed eyes, frequent soreness of the throat, dryness and heat of the nose, matter running from the frequent soreness of the throat, dryness and heat of the nose, matter running from the head down the throat, often ringing or deafness in the ears, loss of smell, memory impaired, dullness and dizziness of the head, often in the first stages, but more commonly in its advanced stages, attended with pains in chest or left side, and under the shoulder blades. Indigestion usually attends Catarrh; a hacking cough and colds are very common; some have all these symptoms; others only a part. Very little pain attends Catarrah, until the liver and lungs are attacked in consequence of the stream of pollution remains from the head into the stometh.

tarrah, until the liver and lungs are attacked in consequence of the stream of pollution running from the head into the stomach.

All persons thus affected take cold easily, and have frequently a running at the nostrils; the breath sometimes reveals to all around the corruption within, while the patient has frequently lost the sense of smell. The disease advances covertly, until pain in the chest, lungs or bowels, startles him; he hacks and coughs, has dyspepsia, liver complaint, and is urged by his doctor to take this or that; perhaps cod liver oil is prescribed. Perfectly ridiculous! The foul ulcers in the head cannot be reached by pouring such stuff into the poor, jaded stomach. The patient becomes nervous; the voice is harsh and unpatural; he feels disheartened; memory loses her power, judgment her zeal, gloomy forebodings hang overhead; hundreds, yes thousands, in such circumstances, feel that to die would be a relief, and many even do cut the of life to end their sorrows.

THOUSANDS ARE DYING In early life with consumption, who can look back a few years—perhaps only months—when it was only catarrh. Neglected, when a cure is possible, very soon it will transform—the features of health and youth into the dark, pallid appearance; while the hacking cough, the excess of blood gushing from the lungs, or night sweats, all significantly proclaim it is too late; and thus a neglected catarrh ends in the consumptive's grave.

NASAL CATARRH. Sometimes the disease only effects the membranes lining the naval passages, and they may be easily reached and cured by simple means. But when it is located in the frontal sinus, or in the posterior narce, or if it has entered the custachan tubes, and is injuring the ears, then nothing but finely medicated vapor can effectually reach it and destroy it. And certainly, after it has affected the throat and bronchial tubes, as all well-read physicians will readily attest, nothing can be relied on to effect a permanent cure but the inhalation of properly medicated vapor. In the same manner that we breathe common air, we can inhale and breathe a medicated air; and it is perfectly simple, any one can see, thus to treat diseases of the throat, bronchial pipes and lungs. How much better this method by which remedies are conveyed directly to the seat of the disease, than to resort to the uncertain and too frequently mischievous action of medicines taken

than to resort to the uncertain and too frequently mischievous action of medicines taken into the stomach.

Every function is deranged, every nerve unstraing, every muscle and fiber weakened by fever and ague. It is, in fact, a disease which, if unchecked, eventually wrecks the system. AMONG WOMEN catarrh is very common. The decrees of fashion compel women to go from the dry atmosphere of furnace-heated houses, into the open air, with the head but poorly protected. Many suffer keenly from bronchitis and difficulties of the throat TEACHERS IN OUR SCHOOLS are greatly subject to this fearful malady. Confinement in close, ill ventilated school rooms; the over heated atmosphere, charged with the steaming poison exuding from the bodies of the not always over clean children, breed this disease with fearful rapidity.

LAWYERS IN THE COURT-ROOM and judges on the bench, from the same general cause, are too often afflicted in the same way.

MINISTERS OF THE GOSPEL, after leaving the pulpit, over-heated with the strain of their mental and physical effort, neglect succient precaution, and a cold is the result. This neglected opens the way to catarrh, and to a possible loss of voice. I have suffered so keenly myself that I cannot urge upon public speakers too strongly the necessity of

MY EXPERIENCE. EIGHTEEN YEARS of terrible headache, disgusting nasal discharges, dryness of the throat, acute bronchitis, coughing, soreness of the lungs, raising bloody mucus, and even nightl sweats, incapacitating me for my professional duties, and bringing me to the verge of the grave—ALL were caused by, and the results of Nasai Catarrh. After spending hundreds of dollars, and obtaining no relief, Rundreds of dollars, and obtaining no relief, I compounded my Catarry Specific and Cold Air Inhaling Balm, and wrought upon myself a wonderful cure. Now I can speak for hours with no difficulty, and can breathe freely in any atmosphere. At the calls of numerous friends, I have given my cure to the public, and have now thousands of patients in all parts lof the country, and

arre to the public, and have now thousands of patients in all parts of the country, and thousands of happy fellow beings whose sufferings I have relieved. My cure is certain, thorough and perfect, and is indorsed by EVERY PHYSICIAN who has examined it. If

Mr. Thomas J. Dally, of Homer, Champaign Co., Ill., one of the worst cases I ever ad under treatment, who was six months bed fast, and nearly blind, one eye utterly detroyed by Catarrh, nose and face much disfigured, and throat and lungs in a critical state. writes, June 21, 1878:

"Dear Mr. Childs: I have used your Catarch freatment, that my brother, B. O. Daily, of your place, kindly sent me, now over three months, and almost all this time in hope lessness, as it seemed I must die. By and by it begin to take effect, and I began to have hope. I improved rapidly, soon could sit up, passages of the head began to open, throat and bronchial tubes grew be ter, cough ceased, and now I can see to write. I now expect to get well and go about my business again. I owe you a great debt of gratitude.

A WONDERFUL CHANGE. Mr. W. S. Sandel, of Willis, Montgomery Co., Texas, writes:
Rev. T. P. Childe-Dear Sir: In 1873 I was attacked with catarrh, slight at first, but it gradually grew worse and worse. In the spring of 1877, the disease assumed a new form: my mouth and throat were attacked, ulcers were formed, and soon the ulva was all eaten away, and large sores through the posterior nares. My condition was now-not all eaten away, and large sores through the posterior nares. My condition was now-not only deplorable, but apparently hopeless. Large quantities of very offensive matter were discharged from the nostalls and throat; and for days together I could take no food but spoon victuals. I knew of no remedy, and the doctors could give me no relief or advice. My sufferings were intense, and distraction of mind was added to my physical sufferings. At this juncture a friend called my attention to your advertisement. I lost no time in procuring your Specific. I received it the latter part of August and commenced using it immediately, and began to improve right along. My throat healed rapidly, and the change in my appearance for the better was so marked that I was often greeted with, "Why! what a change! How much better you dock!" When I think of what I suffered, and the many sleepless nights of agony spent, I am truly glad there is a remedy for this horrible disease. I shall recommend it to all suffering with Catarrh. I will cheerfully answer any letters that may be addressed to me asking information.

Most sincerely your friend,

W. S. Sandel.

WHAT THE EDITORS KNOW OF T. P. CHILDS Catarrh, in its worst and most offensive form, compelled Mr. Childs to give up his charge, after years of public speaking, and constant use of voice, always strong. After trying all that medicin could do for him, he finally, it despair, attempted his own cure, and, having considerable knowledge.

mber of testimonials from well known publishers and others throughout the country seems to dicate that his pecular manner of treatment is worthy of investigation by those thus afflicted e physicion who is able to relieve sufficient humanity of such painful fils is most assuredly enled to the thanks and patronage of the world at large.—Andrews' Bazar, Cincinnati. CONCLUSION.

Nasai Catarrh in all its norrid forms, in the nead, throat and bronchial tubes, arranged into one complete system of treatment. Two kinds of inhalants and two fine inhalers go with each full course of medicine.

Do not triffe with some cheap thing, which at best can afford but temporary relief, while the roots of the vile disease are left to strike deeper and deeper. Be in earnest and thorough or do nothing!
